.Intermediate'	Percentage :- 77

Projects

Online Portfolio Website

- Personal website with sections: About, Skills, Projects, Contact.
- Responsive design using HTML, CSS, JavaScript (or a framework like React).
- Contact form with email functionality using a backend like Node.js or PHP.
- Smooth navigation and animations with scroll effects.
- Host it on GitHub Pages, Vercel, or Netlify.

Task Manager or To-Do App

- Users can create, edit, delete, and mark tasks as complete.
- Option to categorize tasks (e.g., work, personal)
- Store data in browser storage (localStorage) or database.
- Clean UI with real-time updates.
- ·Optional: Add user login and multiple user support

Weather Forecast App

- Use OpenWeatherMap API to fetch real-time weather data.
- Display temperature, humidity, weather conditions, etc.
- Search by city or use geolocation.
- Responsive design for mobile & desktop.
- Optional: Add background changes based on weather

Internship

YHILLS EDUTECH

- Took an online 3 months course to learn more about web design and management, and successfully finished the course with the highest score.
- The mentors were highly skilled and approachable, providing guidance at every step and helping me improve both my technical and professional abilities
- Throughout the internship, I worked on real-world tasks that strengthened my problem-solving abilities and technical knowledge.
- Projects- portfolio website development,weather app,to do list.

CODE TIKKI PRIVATE LIMITED

- I had the privilege of joining Code Tikki Private Limited as a Web Development Intern for three months, and the experience was extremely beneficial for my personal and professional growth.
- The company is known for its supportive work culture and its emphasis on fostering talent among freshers and interns.
- Assigned tasks were challenging yet practical, helping me understand industry workflows and best practices.
- Projects-Real Estate Website,Task Management Tool, Chat Application
