Internship Experience

Code Tikki Private Limited

Jan 2025 – March 2025

- Three months of hands-on experience in web development
- The company fosters talent among freshers and interns.
- Improved problem-solving abilities, frontend/backend development, and industry knowledge.
- Gained valuable insights into web technologies and real-world development challenges.
- Projects-Portfolio,Recipe Finder ,Website.

Yhills Edutech

Sep 2024 – Nov 2024

- I had the privilege of joining Code Tikki Private Limited as a Web Development Intern for three months, and the experience was extremely beneficial for my personal and professional growth.
- The company is known for its supportive work culture and its emphasis on fostering talent among freshers and interns.
- Assigned tasks were challenging yet practical, helping me understand industry workflows and best practices.
- Projects-Real Estate Website,Task Management Tool, Chat Application

Projects

Portfolio website

Designed and developed a personal portfolio website using React, Next.js, HTML, CSS, and JavaScript to showcase projects, skills, and internships. Integrated a dynamic UI with a responsive design for seamless user experience.

<https://github.com/Ishikasharma-code/Projects/tree/main/Portfolio%20Website>

Real Time Chat Application

I built a Real-Time Chat Application using Flask, Socket.IO, and MongoDB, enabling users to communicate seamlessly in real-time.
